**Notes:**

**Swingers:** For group events in which Swingers are allowed, the player with the lowest handicap should be swapped to the first cell of the row. This will then automatically place him/her as the swinger with the player in Cell 3 of the row. If a swinger is not required then swap the player in cell 3 to cell 4 to deactivate this grouping.

**Grouping of Players:**

**For paired events Cell 1 & 2 and 3 & 4 of the booking row will make up the pairs.**

**Please Note:** "show Great scores" on the club leaderboard should be turned off for group team events so that eagles/holes in one are not shown as it will be displayed for each player instead of the individual who got the great score.

**Four-Ball Handicapping and Four-ball Setup** [\(click here for details\)](#)
