

MiClub Product Release Upgrade: Client Notes

Version: 30_1.135

Release Date:11/11/2010

List of additional items and changes

- New: Event Terms and Conditions content creation section which forces members to read and agree on an event's T&C's when accessing timesheets. (click on link to see guide to activate)
<http://www.miclub.com.au/upload/wysiwyg/tools/Terms%20and%20Conditions%20Display%20Manual.pdf>
- New Handicap export report options (ability to create set reports that allow user to select set categories and columns) :
<http://www.miclub.com.au/upload/wysiwyg/tools/Handicap%20Reports%20Guide.pdf>
- Renamed kiosk button names to page up and page down on kiosk booking page (for clubs not using the new kiosk booking screen yet please click here to view a sample of it)
<http://www.miclub.com.au/guests/support/kioskBooking.mhtml>
- New: Presentation competition result report added to the list of available report types to create.
(This report is suited for presentations – larger font/ less details)
- Booking violation notification will be sent to the booking administrator email address instead of the general website admin email.
- If you are using our Comp Management module and you have GolfLink # required for visitor bookings enabled under the row settings then instead of just checking if the number is 10 digits long it will verify if the number exists and bring back the players details from GolfLink webservices. The previous fields of name, club, HCap and gender will now be read only. (does not apply to admin booking role)
- New property to be able to disable access to booking reports where staff role is booking administrator. Used where club doesn't want certain staff to have access to financial booking report information.
- New security user role "Committee Member" which is used for private page access setup by design team.
Cost \$200 + GST (Staff Intranet page and access)
- Added extra Timeout period for GolfLink webservices to reduce the occurrences of timeouts and failures in comp submissions at busy times like Saturday afternoons.
- Amended Create GolfLink number to order a GolfLink card at the same time. Separate function to order a replacement GolfLink card will no longer function.
- Prize Accounts Integration to InfoGenesis Accounts ledger
- Live Account Display Integration between InfoGenesis accounts ledger in My Accounts section including live prize transactions.
