

MiClub / MiTournament Leaderboard Links Guide

Ver35: March 2012

MiTournament

To assign a MiTournament event with a Leaderboard data feed, copy the

Data Url at the bottom of the product Leaderboard display: i.e. Data Url :
</guests/golf/competition/TournamentLeaderboardData?id=72372>

You'll need to add the domain name to this before saving into MiTournament. i.e.
golfnsw.miclub.com.au/guests/golf/competition/TournamentLeaderboardData?id=72372

Once the data address is applied you can access the Leaderboard in MiTournament via the search tournament function or direct access is required follow the following:

The urls cannot be copied from Mitournament.com as they are session based. To reference any leaderboards from MiTournament ensure the link address follows the format below and references the event ID at the end.

<https://www.mitournament.com/tournament/leaderboard?tournamentId=102301>

The event ID is referenced by hovering over the event listing in MiTournament.

Product Online Leaderboards>

Version 35 utilises primefaces Leaderboard display now in the Miclub product.

To view this in guest mode the address needs to be in this format

http://domainname/views/leaderboard/Leaderboard_ID#

i.e. <http://devwork.miclub.com.au/views/leaderboard/1504528234>

Multi Rounds External Link>

To access the multi round Leaderboard display externally; you'll need to utilise this link(changing the domain and event ID) below rather than the browser address url.

<http://mlgc.org/guests/golf/competition/MultiRoundLeaderboard?doAction=multiRoundLeaderboard&competitionId=1504571225>

i.e.

(domainname)/guests/golf/competition/MultiRoundLeaderboard?doAction=multiRoundLeaderboard&competitionId=(Mutliround ID)

Club House Leaderboards>

Club house leaderboards are not affected in ver35 and can be accessed externally from its current url address and changing members to guests.

<http://golfnsw.miclub.com.au/guests/golf/competition/LiveLeaderboard?id=72447>
