[Please click here to refer to last version notes for further details](#)

Admin Tool Bar:

All admin users will have a new uniformed website Tool Bar at the top of the club website replacing the existing Tool bar area which was running out of space.

All existing links to admin functions are there as well as new links to MiClub Twitter and Facebook.

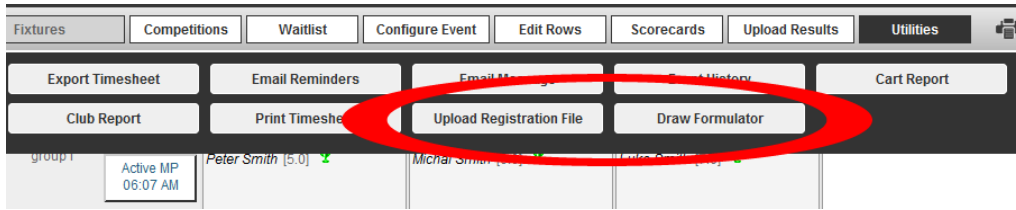

MiTournament: Online Registration and Payment for Events

Check out the new site @ www.mitournament.com

MiClub along with State and National golf associations have developed a one stop site for national, state and club golf events whereby golfers can register and pay online for open events.

Registrations made via this site can easily be imported into your timesheets.

Draw Formulator

Under utilities of a timesheet is a draw formulator which can re-arrange a timesheet draw by a number of factors including, Handicap, age, surname, club, competition ranking and Match Play. This feature will have the ability to clone timesheets from say a previous round and automatically assign players who have made 'the cut' into the next round in a particular order.

Presentation Prize Report

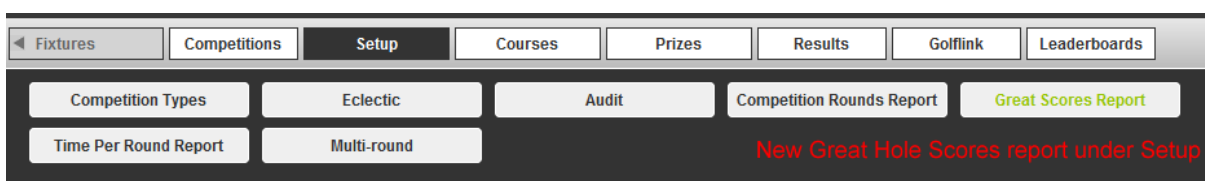

New report that can be generated after comps are closed that display results with prizes in a usable format for presentations. Also included are listings for prizes assigned for best gross by grade and automated great score prize allocation.

Automatic Prize allocation for great hole scores

Autoscore users can enjoy the ability to assign prizes to great hole scores like Hole In ones and eagles and have these assigned automatically.

Great Scores Report

Autoscore users can obtain reports of players who have had great hole scores such as birdies, eagles, albatrosses and Hole In Ones over a date range.

Best Gross by Grade Prize Allocation

Autoscore user now can allocate prizes automatically to the best gross score by grades.
