

MiClub Version 34.Build 133 December 2011

Your club's MiClub product website will undergo an upgrade this month with a number of new functions listed below. We're also excited about new products and features to be released in the new year.

So What is New?

- **Extension of prize allocations and improvements to prize results PDF's.**
- **Booking Movement Report – check the number of bookings generated over a month on a daily occurrence.**
- **Medical Assistance Module – Locate and Notify members on the course who can respond to medical emergencies. (Enabled on Request)**
- **Handicap Changes Report – find members whose handicap has greatly improved over a date range.**
